UNIT 5: Types of Touch

SHIFT EDUCATION: HEALTHY RELATIONSHIPS CURRICULUM

How do you ask for touch?

“Hug please?” “High five?” • Reach a fist out to do burger and fries (fist bump and then fists break away with an open-hand palm caring the floor) • Reach out an elbow for an elbow bump

How can you tell if someone likes a specific touch?

Their body will often seem more relaxed • (How else?)

How can you tell if someone doesn't like a specific touch?

They will often move/step away, curl up their body, exhibit an upset/angry face, say that they don't like it, tense up, shoulders up, jaws clenched • (What else?)

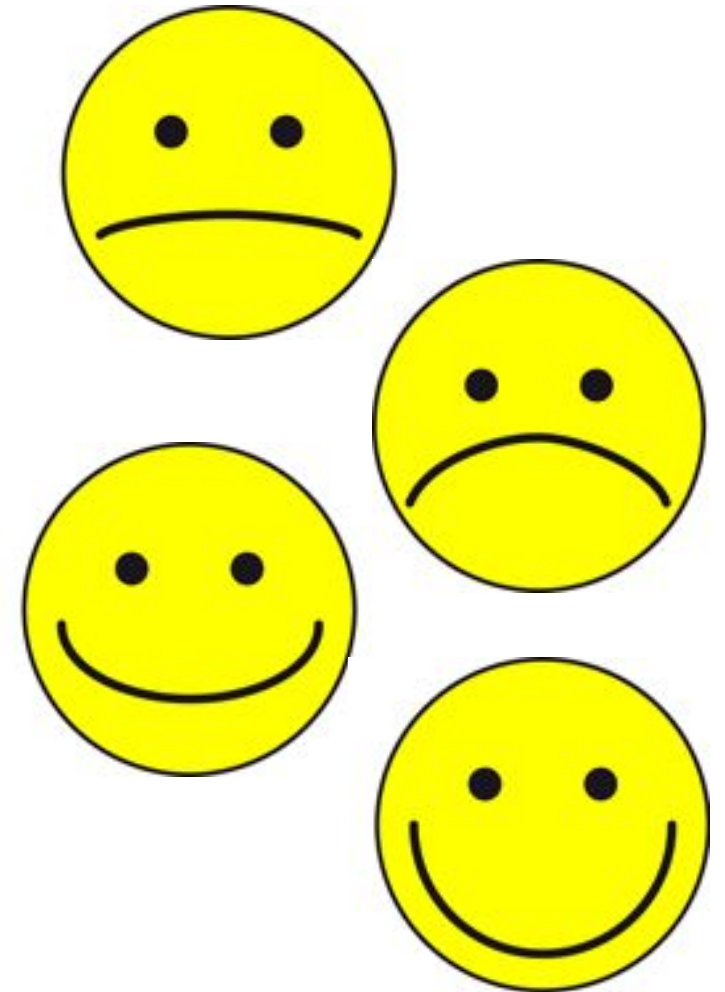

A close-up photograph of two hands clasped together. The hand on the left is wearing a dark blue jacket with a blue and white striped cuff. The hand on the right is wearing a grey textured sweater. The background is a blurred reddish-brown surface.
